

## Self reflection

Ask yourself and answer these questions.

- Did I attend class regularly, take notes every day, do the class work, and participate in class?
- Did I do the homework every night this chapter?
- Did I ask questions when I needed extra help?
- Did I get tutoring at lunch and/or tutorial when I needed it?
- Have I used online resources, such as Khan Academy, purplemath.com, etc, to help me with the concepts I am not understanding?
- Did I try all of the study questions before the test?
- Did I rework the study questions before the test?
- Did I do everything I could do to prepare for the test? (go over notes, study, sleep well, eat breakfast...)
- What else could I have done to prepare for the test?
- What else could Ms. Hintz could have done to help me prepare for the test?
- If there was anything else Ms. H. could have done, did I let her know that?
- What grade did I expect on the test?
- What grade did I get on the test?
- What am I going to do to prepare for the next test?
